

GW1000 Series Router Antenna and Cable Options

Virtual Access offers a variety of antennas and cables for the GW1000 as every deployment is different. When selecting an antenna and cable for your device, you should consider factors such as the installation environment, mounting options and the distance between router and antenna location.

We provide most antennas with a cable length of up to 5 meters. We recommend you keep the cable length as short as possible to minimise cable-caused attenuation.

Antennas for GW1000 Series Router

VA Part Number	
160-00019	Vehicle antenna (for in-vehicle units)
160-00002	3G stubby antenna (for 3G units)
160-00029	LTE antenna (for 4G or LTE units)
160-00012	CDMA 450MHz stubby antenna (for CDMA and LTE450 units)
160-00027	MA.208 stream GPS:3M RG-174 SMA(M)- 2G/3G/4G:3M CFD-200 SMA
160-00031	450 MHz antenna
160-00033	External roof-mount vehicle antenna: 1m cable

Power Supply Cables for GW1000 Series Router

VA Part Number	
840-00076	Automotive cable: AVMP 3m cable
840-00027	Bare ends 2m DC cable
840-00002	UK mains lead: 2m cable
840-00006	EU mains lead: 2m cable
840-00054	South Africa mains lead: 2m black cable
840-00018	USA mains lead: 2m cable
840-00084	Australia mains lead: 2m cable

In-line 12V Power Supply Cables for GW1000 Series Router

VA Part Number	
810-00011	In-line 12V DC
810-00005	Extended Temp (-40°C to +70°C)
810-00022	12V 50°C Temp PSU

Miscellaneous Cables for GW1000 Series Router

VA Part Number	
840-00004	Ethernet RJ45 to RJ45: 2m cable
